

Global Hot Spot: The Pisces-Virgo Full Moon on February 27, 2021

Dateline Thursday February 25, 2021: While you will still see here the World Map of solar, lunar and planetary rising/setting and above/below lines for this Full Moon and the chart for the Pisces-Virgo Full Moon occurring on Saturday February 27 at 3:17AM EST calculated for Washington, D.C. at the close of this feature, I am focusing this time on both the day of the Full Moon and the day after (February 28) as this solar-lunar monthly crescendo definitely expresses its important astro-psychic influences over the entire 48-hour time-span of the upcoming weekend.

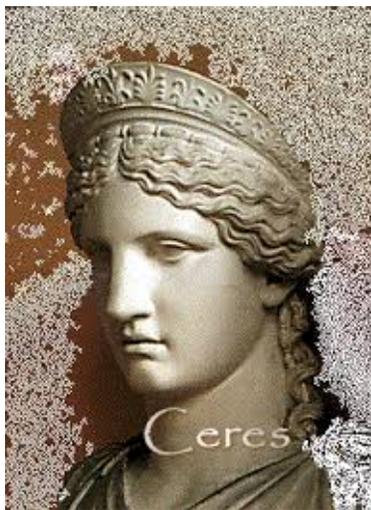

Therefore, below are the two entries from the *Astrology Cosmic Kalendar* – now as an App for iOS and Android phones – and referred to further down below. Please note that beyond what I have written in the two Cosmic Kalendar days and for the USA in particular, a very busy second house of money reveals why Congress is in the midst of passing some kind of major Covid Relief bill. In addition, safety-security concerns are at a white-hot intensity – world-wide – as the asteroid Vesta in mid-Virgo is almost precisely in a dicey, square formation of 90-degrees to the fate-destiny transiting Lunar Mean Nodal Axis in mid-Gemini/Sagittarius. Issues connected to home and hearth, land and diplomacy, insurance coverage and

investment planning, sisterhood and brotherhood ties, plus the archetype of the Eternal Flame are highlighted and not necessarily in a harmonious, upbeat manner.

Another challenge shows up in that the red planet Mars and the far-distant planet Sedna are at the same degree – 28 Taurus – which is also an area where the powerful Pleiades constellation of 7 sister stars is located and the Mars-Sedna conjunction gains greater intensity as it makes a close trine of 120-degrees to the USA Pluto at 28 Capricorn. The asteroid Pallas Athena – associated strongly with Knowledge, Wisdom, Justice,

Problem-Solving, DNA, Genetics and the Immune System – at 28 degrees Aquarius is in a close and frictional square to both potentially volatile Mars and frozen-conditions oriented Sedna. (Pallas Athena notably has just made a return to its natal placement for America and triggering our country’s natal Moon and distant celestial orb Quaoar – in our July 4, 1776 horoscope for *The Declaration of Independence* – during the two days before the Full Moon and this kind of asteroid return only occurs around every 5 years.)

Last but not least, this Full Moon is within one-quarter of one degree energizing the USA natal and stationary Ceres at 9 degrees of Pisces. Since the largest asteroid Ceres has a profound connection with productivity, food, agriculture, Mother Earth, labor and commodities, this is another reason – beyond the Vesta square to the transiting Mean Lunar Nodes – why there is so much havoc, confusion and controversy going on with crypto-currencies, the fluctuating prices of Gold, Silver and Oil, rare-earth elements and which nations have them in abundance and which nations don’t, stocks and bonds, real-estate values,

and various issues regarding the Federal Reserve, the Treasury Department and the world banking system. To learn more about the themes and archetypes of the Sun, Moon, planets, four asteroids and Chiron, please visit the complimentary *Astro-Business Keys* section on our website.)

Two Entries from the Astrology Cosmic Kalendar: Saturday February 27 and Sunday February 28, 2021

(Times in the Cosmic Kalendar are calculated for the Pacific Time Zone)

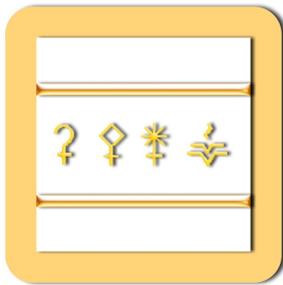

Sat Feb 27 Let go of any stress that developed under yesterday's cosmic free-for-all. **With the Full Moon — energizing 9 degrees of Pisces and Virgo at 12:17am — the universe is sending earthlings a reminder that empathy and service to one's fellow planetary travelers are essential on the path to fulfilling your higher destiny in this lifetime.** Individual and virtual group meditations are in sync with the monthly culmination of solar and lunar vibrations. Placing an exclamation point on activities connected to safety and security, home and hearth, insurance coverage and investment planning, sisterhood and fellowship ties is the Moon uniting with Vesta (11:32am). Try your hand at writing rhyme poetry, limericks or haiku later on when the Moon forms a polarity to Neptune (7:08pm). Tapping into your skills as a superb organizer and efficiency master is being amplified with the lunar orb transiting through the sixth sign of the zodiac. Stock up on cereals, grains, veggies, fruit, vitamins, herbs, tea, nuts, seeds and seasonings with an eye for savings.

Sun Feb 28 Back on February 24 a physically-emotionally vitalizing trine between Mars in Taurus and Pluto in Capricorn occurred in the heavens. Now a Grand Triangle involving the Moon in Virgo arrives on the scene due to lunar trines to Pluto (4:44am) and Mars (7:59am). Accomplish important plans, jobs and errands in the hours leading up to the Moon-Mars liaison. Once this lunar link to the red planet becomes exact, a 3+ hour void zone is in effect until the Moon switches its allegiance to airy Libra (11:18am). Striving for peace and harmony with dear ones is on the Sunday

agenda — particularly as the Moon forms illuminating polarities with Ceres (4:14pm) and Chiron (11:15pm) in Aries. Find time to immerse yourself in a favorite artistic skill or hobby with the lunar orb in the seventh sign of the zodiac. **Reinforcing your role as a goodwill ambassador far and wide is always a major theme during the two days that follow any Full Moon — especially with Sun-Pluto and Mercury-Vesta challenging sky cycles greeting you tomorrow as Monday ushers in the third month of 2021.**
