Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Embrace the World

Ascendant in Pisces

This year you can be a willow-the-wisp, hinting at meaning but never quite divulging the diaphanous mystery that hides beneath your façade. That allows you to choose your truths and disclose only as much as is necessary or meaningful. It also requires that you know the difference, which could be a little harder, so don't get lost in the part. There's a natural gateway to the unknown, and you seem to be standing in front of it, but that's only as others see you. The real you is for you to know and them maybe not to find out, this year at least.

Appears Spiritual

Neptune Conjunct Ascendant

You've got a natural cloaking device working for you this year, and what other people see in you is as much what they imagine as what's actually there. That lets you play any part you want, except that playing yourself may be the most difficult to pull off. The world's a stage, and you just walked onto it.

The Midheaven

Your Reputation, Career, Life Path

Truth Management

Midheaven in Sagittarius

You're talked about in truthful but sometimes overly simplistic terms this year. Appreciation and plaudits abound for your more obvious endeavors when your more complex efforts may go right over people's heads. Don't look a gift horse in the mouth, however, and time will bring your subtler side to light soon enough.

The Foundation for Your Year (continuation)

Manage Mental Understanding

Mercury Sextile Midheaven

What you say without thinking will only go to confirm people's good opinion of you this year, since you've got your patter down and don't have to consider every word in order to be consistent with the truth you're telling. The way you phrase it tells a lot about you, Freudian slips that support your good intentions.

Manage Spiritual Progress

Neptune Square Midheaven

Confusion about yourself and your personal involvements can mislead others about what you're doing and who you are. That can lead to false rumors or incorrect assessments of your value, so an emphasis on spin control this year would be a really good idea. Put your ear to the ground, then correct what's in the air.

The Sun

Your Inner Personality and Style

Planner

Sun in 11th House

This is a year to hang out with the best – those who have and will serve you well. Although that could be anyone from old school friends to the hottest new clique, you'll know them when you see them, because there's an inner magnetism pulling you there. Your recognition of value is in part what gives the greatest value to your circle of trust, because those there are somehow extensions of your own personality. A winner knows a winner, so they say, and that pretty much describes it for you this year. Seek them out, they await you.

Full Experience

Moon Opposite Sun

The full Moon brings a year in which personal matters are brought to fruition and development comes to a head. You've expanded the envelope as far as it can go, so you can stop looking outward and begin digesting the work you have accomplished, cash in some of your chips, look for ways to invest your efforts.

Impersonal Effort

Sun Square Mars

It may seem a little like you've got a blocked fuel line this year, as energy levels are intermittent and getting your rhythm of push and pull, go and stop is a challenge. It's like you're faced with a series of ill-timed stoplights that don't let you get up to speed and stay that way. Don't make it worse by racing to each next stop.

Ideas for Success

Sun Conjunction Jupiter

You're in the mood for expansion this year, with a positive inner attitude to beat the band, just looking for new places to put yourself. Finding them is the first task, and sharing them is the second. It's easy to make it an ego trip, but if you're inclusive about it, you'll go a lot farther with your ambitions.

Ideas of Authority

Sun Conjunct Saturn

This is a serious year for you, and you're taking it very seriously, as the burden of work and delivering the goods is very much on your shoulders. Although it may leave you drained, if you thoroughly tend to everything that comes along you'll have made not just strides but firm footholds exactly where you want to be.

Public Freedom

Sun Square Uranus

Change is good when you're ready for it, positively annoying when it simply derails your current trajectory. Watch for unexpected developments along the roadside this year that make for sudden detours, circuit-breaking demands. Much may not be your doing, but what you do with them immediately makes them yours.

The Moon

Your Feelings, Reactions, Emotions

Creative Support

Moon in Leo

Your style may take a turn for the more dramatic this year, as feelings that might otherwise be muted or held in place find new channels of expression that puts them on stage with flare and perhaps even bravado. Why simply respond when you can take the opportunity to perform and more elegantly display your take on the situation? In general, you're more likely to run with whatever occasion arise to make things more fun, playful, and creative whenever you get the chance. If life is a stage, your scene is coming up so get in there and break a leg, as they say on Broadway.

Creative Support

Moon in 5th House

Given the opportunity this year, you will make your life and emotional playground, just letting your creative feelings open up and chart their own spontaneous explorations. That means seeking out and being sensitive to potential paths that allow growth and do not limit its direction. Children do that naturally, so make your choices the more childlike the better, although there's no reason not to let the urge take the field in the workplace to reinvigorate your efforts there. It's about seeing with fresh eyes, feeling with a new heart - romance and fantasy, yes, but right here in real life.

Strong Statement

Moon Square Mars

Your feelings may be at cross-purposes with your actions this year, which can make you literally quite cross. You have to repeat yourself to get it right, try it a second or third time until you feel good about it, and that can be frustrating and annoying. Try not to take it out on others, as that just adds to it.

Experiencing

Moon Opposite Jupiter

Emotional overreaction or mistimed reaction may be a hallmark of the year, as you feel strongly about things but find it hard to express it at the appropriate time. Bursts of enthusiasm, followed by holding back, are more likely than an even flow, which may confuse some as to whether you really mean it.

The Foundation for Your Year (continuation)

Experience Control

Moon Opposite Saturn

Emotional blockage could be a problem this year, as feelings that would normally come out get delayed and then by circumstances simply get left behind. It can be all about timing, when hesitation means loss. Second thoughts can be a benefit, but third and fourth ones lead to paralysis. Say no twice, but not the third time.

Innovative Steps

Moon Square Uranus

Fits and starts mark your maneuvers this year, as you over and under react to abruptly changing situations until you fine-tune your trajectory. That can be a little unsettling to yourself and those around you, so apologize if you must while moving on nonetheless. The appearance of inconsistency fades over time.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Community Ideas

Mercury in Aquarius

Farming out your opinion will be very much the same as expressing your own, since you'll be wanting to depend a lot on what you get from polling everyone else. Your talents will be best focused on bringing all the sides together into a working plan, not choosing one over the other, including your own.

Psychological Ideas

Mercury in 12th House

Shooting your mouth off can get you in trouble this year, primarily because you may give away your plan without knowing it. Better to keep a lid on what you're onto and organize behind the scenes without too much fanfare. Back-door arrangements beat up-front slip-ups across the board.

Venus

Your Needs, Wants, Desires

Practical Love

Venus in Capricorn

Simple fare does not preclude elegance, and classic tastes are likely to have greater appeal to you than overstated add-ons. Less is more, and mainly it's more intense, even when it's hunger that's the best sauce. You won't need a lot, but what you take in, you'll devour to the bone, and make soup out of the rest.

Love of Community

Venus in 11th House

Sometimes all you really need is a warm circle of friendship, supporting you in familiar ways you know you can depend on. Other times, it's an audience with someone you never dreamed of getting to know. Both may be at hand shortly, so be open to the possibilities. Just remember: one is silver but the other's gold.

Ideas of Control

Venus Conjunct Pluto

You will have it, you shall, you must! It's an ongoing thread this year which could lead you into deep waters if you let that current take you. When a sense of destiny overtakes desire, the border between safe and sorry can come perilously near, so make sure you take only what's really yours, or you'll get yours all too soon.

Mars

Your Energy, Life Force, Excitement

Urge for Growth

Mars in Taurus

Dozing out your energy in workmanlike packets is the way to go, because you'll get more mileage if you don't pump the accelerator. It's all about building up strong momentum so that the job does itself once you're up to speed. Take the patience to craft your efforts well and they'll work for you long after.

Urge for Growth

Mars in 2nd House

Hard work promises tangible rewards this year, and certainly that's where you'll be directing a lot of your energy. Just remember that throwing good money after bad can really slow you down, so before you throw yourself into the task, make sure the previous push has got you going in the right direction.

Positive Signs

Mars Square Jupiter

There's a tendency to overdo or underdo what needs to be done, especially when it's something new you haven't tried before. Like a batter facing a new pitcher, you have to swing and miss several times until you get a sense of where to connect with the ball. It's a waste of energy, but necessary to get into tune.

Discipline

Mars Square Saturn

You can get winded at the most unexpected times, but there is a rhythm to it which you'll discover. By constantly checking yourself, you use up energy and prevent the follow-through that comes from an unbridled swing. Don't worry so much if you're going to hit the mark, or you won't. Just take aim and shoot.

Ideas of Freedom

Mars Conjunct Uranus

The temptation for sudden, severe action is great this year, and it's all a question of how careful you are deploying it. You can take careful aim and hit like an atom bomb, or you can shoot from the hip and miss, your call. It simply rests on your ability to control and focus highly explosive energy at your command.

The Gate-Keepers Jupiter and Saturn

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter Ambitions, Goals, Possibilities

Community Career

Jupiter in Aquarius

The upward path will be much about giving everybody a piece of the pie and sharing all resources to pull ahead together. It's not a great climate for going solo, since everybody's looking to share both wealth and burden, but it's a good time to discover untapped potential in people and places which were there all along.

Community Career

Jupiter in 11th House

The opportunity for gaining close friends expands this year, perhaps to the point of deciding what close really means. Important new people crowd in, but who will last will be the question. Not the worst of problems, but decisions will have to be made, final choices embraced and brought home.

Skillful Ideas

Jupiter Conjunct Saturn

This one-year-in-twenty promises a climate of social and financial change in which new ways of approaching life come up to challenge more traditional beliefs and methods, marking background turmoil and uncertainty as it all sorts out. These are what the Chinese called "interesting times," less predictable and more heroic than most.

Independent Partners

Jupiter Square Uranus

Attempts to leapfrog from idea into execution may be at sixes and sevens this year, but it's not your problem alone, it's in the air. Troubleshooting and debugging are necessary parts of life's progress, and like everything else, it all happens at once. This makes it less than a good time for leaping into new worlds when the old one still hasn't gotten its act together.

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Community

Saturn in Aquarius

This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

Obstacle: Community

Saturn in 11th House

Learning the meaning of tried and true may be an important lesson of this year, as you weed out those who are truly close from those who seemed to be. This may involve some disappointment, but it also is confirming of what will last and you can count on. Some friends, really, aren't.

Objective Research

Saturn Square Uranus

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Productivity

Uranus in 2nd House

Expect surprising ups and downs, out of left field, in the flow of money and resources this year, so any cushion you can provide there will serve you well. Major new discoveries and opportunities are to be found, but you can't depend on them arriving on schedule. Just be ready to snatch the windfall, should it happen.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Release: Action

Neptune in 1st House

You can be as smooth an operator as you like this year, but that can work for or against you. You can wear the mask, but take it off and others may think you're still wearing one. It's the actor's dilemma. Use it to fool people into doing what is right, not just what you want, and it won't backfire on you.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Community

Pluto in 11th House

Who is and who isn't included in the first tier seating of your life could become an issue. The inclusion of one means the exclusion of another, and that's the stuff over which battles are fought and hearts are broken. You can't love everyone the same, but you can be gentle with the procedures that accompany it.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Mental Accent

Mercury Conjunct Mercury

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

Sun

Your Inner Personality and Style

Ideas for Success

Jupiter Conjunct Sun

You can expect a noticeable surge of physical life energy this year that will add great strength and power to whatever you do. The feeling of inner abundance may set your pace at a speed which may leave others in the dust, so be ready to slow down occasionally so they can catch up - or be willing to go it alone.

Venus

Your Needs, Wants, Desires

Career Ideas

Jupiter Conjunct Venus

Real tangible personal gain may be expected, or at least some events that lead to it. A good time for cashing in on investments or pulling in receipts of any description. Similarly, investments may prove more favorable, but better to go for the bird in the hand when it is here for the taking.

Sun

Your Inner Personality and Style

Ideas of Authority

Saturn Conjunct Sun

A certain seriousness pervades your sense of direction this year, with your moves a bit more calculated and more consistent effort put into things that might have been let by earlier. Physical weariness also comes easier as energy is drained by harder efforts. The pace is deliberate, intense, willful, strong.

Venus

Your Needs, Wants, Desires

Organized Ideas

Saturn Conjunct Venus

Money resources can dry up or be overly drained this year. It's going to be hard to get what you want for a while, so be prepared to just sit it out patiently. Your needs and desires will abide and can be amply tended to later, though some hopeful opportunities will probably have to be passed up.

Ascendant

Your Looks, Your Presentation

Organized Ideas

Midheaven Conjunct Ascendant

Although the masses may not crowd around waving pictures of you on sticks, there's a background feeling like they're doing just that. Expect your picture to be passed around and what you look like to be talked about more than you might imagine. What they see is who you are, or that is what they believe.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jan 28, 2021 to Jan 28, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Ascendant on Neptune (PSR-SR)

You may find yourself in a bit of a fog for a couple of days, but it could be a pleasant one if you're basically on course otherwise. You can soften your image, try a new look on for size, or pretend to be someone you're not and get away with it. Your dreams feel particularly real, so bring one to earth now to savor later.

Organized Ideas

Venus Conjunct Saturn (TR-SR)

Beauty on a budget takes its lessons from bygone days when folks were less wasteful and more resourceful. Clean lines, conservative colors, and classic sensibility paint the picture of what succeeds best right now. Love grows more intense when it is brought into tight focus, and simple altars best praise the gods.

Teaching Ideas

Sun Conjunct Mercury (TR-SR)

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
