Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year

Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Active Conservation

Ascendant in Virgo

Beauty is only in the eye of the beholder when you make sure you put it there, and that's a key signature for this year. When you make an exquisite presentation, wonderful things follow, and doing that is all about discrimination and taste, which are at the top of your menu. You needn't be fussy, just clear in your vision of who you are and exactly how you want to present yourself. Rehearse, rehearse, rehearse - and then perform. When you know it by heart, you look like you stepped off the silver screen. Well-scripted is well-performed.

Emotional Examination Arises

Moon Sextile Ascendant

You're sufficiently busy communicating with others this year that you don't worry about what you look like, and that ease shows on your face. You're not censoring yourself because your mind is elsewhere, and thus there is no level of deception on the surface, even if there is beneath. You look clear and calm.

Examining Action Arises

Mars Sextile Ascendant

You'll be picking up a lot of energy and physical support from your friends this year, so don't hesitate to let the cheering section urge you on and even lend a hand in your efforts. The more enthusiasm happening around you, the stronger you'll be and the more work you'll get done as a result.

Spiritual Experience Arises

Neptune Opposite Ascendant

Confusing signals from friends and close partners may become the norm this year, and it can be hard to figure who's to fault. You're projecting your own images to begin with, and then they get mixed up as to what part you want them to play or whether you're seeing them correctly. Talk it out before you make assumptions.

Power Building Arises

Pluto Trine Ascendant

Confidence in the way you bear yourself is high this year, and you move like you've already gotten where you're going, which is a good way to assure your getting there. When you know you're right, everybody tends to go along with you, including yourself, like you have destiny on your side.

The Midheaven

Your Reputation, Career, Life Path

Manage Information

Midheaven in Gemini

You'll find yourself rumored to be a center of communications this year, which may or may not be entirely true, depending upon whether you decide to go along with it. Use the opportunity to help build your own personal set of connections, even if you don't need to use them right away. Stay in touch.

Manage Ideas About You

Sun Conjunct Midheaven

This is a perfect year to pursue any and all career prospects you have in mind, as you're likely to throw your inner energies into promoting your outer image with enthusiasm and determination. Now is the time to let people know that you believe in yourself, produce your own show, star in your own life story.

Manage Conserving Career

Jupiter Trine Midheaven

More and greater resources, along with accompanying systems to integrate them into your own personal economy, are a key this year. The result is to expand your reputation, which in turn gives you greater access to resources, and so it goes in a positive feedback cycle. Get more, do more, give more, and around once more.

Manage Spiritual Objectivity

Neptune Square Midheaven

Confusion about yourself and your personal involvements can mislead others about what you're doing and who you are. That can lead to false rumors or incorrect assessments of your value, so an emphasis on spin control this year would be a really good idea. Put your ear to the ground, then correct what's in the air.

The Sun

Your Inner Personality and Style

Philosopher

Sun in 9th House

Size is not only measure physically but by the breadth of your concept. Think big, and you're big. That's the ticket this year, as you naturally stretch your boundaries and the sky is the limit in ways that might not have occurred to you before. That could fearlessly lead you to foreign places or just wrap yourself around possibilities that are out of the box because they're too big for one to contain. The key to the year lies not so much in any one escapade, but in the inner adventurer that easily leaps from one experience to the next, because the call just cannot be denied.

Teaching Ideas

Sun Conjunct Mercury

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

Building Success

Sun Trine Jupiter

Steady, expansive growth is a key to your personality this year, as you build on each new development to enable the next to be even larger and better. It's an ever-increasing spiral that's the trend for the year, so make the most of the flow before the added planetary dimension passes.

Building Discipline

Sun Trine Saturn

Support comes from traditional quarters this year, so feel free to lean on previous experience and contacts to shore you up and sustain you when the new stuff fails to produce to expectation. No point in reinventing the wheel when you've got a reliable set ready to roll, proven, tried and true.

Progress in Peace

Sun Square Neptune

Inner confusion is a stumbling block this year, as when you're not sure about your own inner truths it's hard to determine what outside reality is. It's easy to get lured off the path and into the bushes by beckoning promises that seem to offer a better way, but you may be best putting on blinders

The Moon

Your Feelings, Reactions, Emotions

Family Support

Moon in Cancer

This year may be characterized by your taking things more personally to heart than before at various levels. In some ways that will mean extra caring, being more deeply moved emotionally, and feeling closer bonding than before. It can also mean being more easily slighted by words or actions that weren't intended to harm at all, so you may want to check to see if you really are hurt before declaring yourself to be wounded. Throughout, the inclination to throw your heart into the situation and spontaneously dive deeper into your relationships is heightened, along with the protective urges that go along with it.

Community Support

Moon in 11th House

Whether you're pushing on the way up or relaxing at the height of your career, your closest company is what defines the way your world develops. This year you are particularly sensitive to those near and dear, your elected personal elite, and who you'd like either to become or remain among them. Dreams don't come true until they're imagined, and the road to their fulfillment is almost always determined by the people you choose and who choose you. Your ability to create and sell yourself here, as well as protect what you are already working on, is particularly highlighted this year.

Motivational Insight

Moon Conjunct Mars

Strong expression of feeling are an earmark of the year, which can range through every level of inner passion, from joy, to love, to grief, to anger. Reacting too powerfully too quickly can be a problem, as it can upset everybody's composure, including your own, so keep your emotions on a leash, at least until you know there's appropriate room to express them.

Embody Inspiration

Moon Trine Neptune

Intuitive reactions will get you everywhere this year, and rolling with a hunch will lead to another even better one, and so on. Don't try to explain it too much or you'll lose the beat, but when you're in tune, you'll know it. Play it like you feel it and let the rest happen by itself.

The Experience

Moon Opposite Pluto

Confrontations and power plays can put a damper on your emotions this year, as feelings get blocked for reasons that may not be really clear but seem to have definite cause. It's a passing thing, so don't act too quickly to blow away the opposition, as you may find that to be totally inappropriate and a waste of inner resources.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Communications

Mercury in Gemini

Your head can cover all the bases this year, as long as you can put your plans into words and down on paper. Discuss it, network, get everybody's opinion and then put your own on top of the mix to cap the lot. As long as there's a plan you can stand back and look at, analyze, you'll be on top of the issues.

Spiritual Ideas

Mercury in 9th House

Putting those big-picture ideas down on paper so they make sense is a theme for the year, so put your head to it. Now's the time to step down that hypothesis to a theory and then into a real plan that makes sense. Just connect the dots, and there it suddenly all appears before you.

Mind Training

Mercury Trine Saturn

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

Successful Words

Mercury Square Neptune

Mental confusion and spiraling uncertainty are challenges to meet and overcome this year, as your thinking process is subject to blurring by influences that might not ordinarily derail you. Part of that may lie in your demanding more clarity than is available and refusing to continue without it. Instead, press on, regardless.

Venus

Your Needs, Wants, Desires

Love of Home & Family

Venus in Cancer

Desire is sweetened when the prize is yours and yours alone, and you'll be most satisfied when you can nourish your small pleasures into big ones without too much sharing going on. That doesn't mean you're not in the mood to give - quite the opposite - but it's important to be in control so it properly comes to flower.

Practical Love

Venus in 10th House

Much applause from all around you is ahead, especially if you make a point of asking for it. Don't hide your light under a bushel, let it sparkle for all to see and everyone is going to want a piece of your action. If you wait, it could be too late, so simply make yourself available to your public.

Slings and Arrows

Venus Sextile Uranus

Tastes change in small increments this year, and although you may not notice it along the way, you'll have discovered a whole new world of satisfactions you didn't even consider before you began. Like fireflies in summer, first there's one little flash, then another, and before you know it your field's on fire.

Mars

Your Energy, Life Force, Excitement

Creative Drive

Mars in Leo

Enthusiasm and generosity ensoul your energies, and the more you let yourself free to enact your creative side, the more will get done. When it seems like play, that's when you're doing your best work, so don't let yourself get boxed in or sat upon to repeat old efforts. Find your muse, then let her rip.

Community Drive

Mars in 11th House

Forging your circle of friendship, your important connections, the reliable space station that you'll count on to sustain you and take you from the planet to the stars, that's your major energy-burner this year. The ladder between earth and sky is where you're living, so make sure it's sturdy and climable.

In Control

Mars Opposite Pluto

Your efforts periodically come up against a brick wall this year, and roadblocks can tire you out by forcing you to redirect your energies to get around them. Resist the tendency to rev your engine and smash through, as your insurance may not cover the consequences. Wait for the path to clear or try a clever detour instead.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Career Helping *Jupiter in Pisces*
 You are likely to see people going out on a hunch and staking their gains on intuitive calls that may easily founder or, if on the mark, race to a new level. It's all about listening to that still, small voice - and about quieting the noise enough to hear it. If you're a hard-nosed realist, this could drive you crazy - but it's in the air, so why not share?

Career of Care *Jupiter in 6th House*
 An overabundance of alternative routines present themselves this year, and that could more than overfill your days and nights unless you choose the right new method to pursue. Don't try every fad diet that comes along, because the one that will keep you in trim is staring you in the face.

Saturn **Caution, Wariness, Wisdom, Boundaries**

Obstacle: Community *Saturn in Aquarius*
 This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

Obstacle: Creativity *Saturn in 5th House*
 Indulging your inner child is wonderful sometimes, but this year may be the time to provide the kid with a little discipline. When all you do is play, nothing is any fun. When recess is short, it's heaven when it comes. Apply the principle, and you'll be surprised how focused your creativity can become.

Objective Research

Saturn Square Uranus

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Business

Uranus in 8th House

Expect unexpected offers in the credit department this year, but whether you want to rush to take advantage of them is another issue to be dealt with carefully. Genuine opportunities of lost treasure may truly arise, but all that glitters is not gold, and following fool's gold is a fool's errand.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Embrace: Caring For

Neptune in 6th House

Wishing and thinking about what needs to be done won't ultimately make it happen, especially where practical, everyday matters are concerned, but it's a good start. You may find yourself accruing a host of good intentions this year, which by and by may turn into specific applications, but don't push yourself unnecessarily.

Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Family

Pluto in 4th House

Your greatest power comes from your own inner foundation, not the tool you momentarily have in your hand. That's something you'll tap into this year, as when the inner bell rings, the outer walls resound. It started at home as a little child and it renews itself at home to this day. That's where to look.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Venus

Your Needs, Wants, Desires

Insight Into Feelings

Moon Conjunct Venus

You're extremely attuned to what you want, and sometimes desire is so strong you can taste it this year. You don't have to fumble around for an excuse or a way of phrasing it, you just know it the moment you see it and reach out to grab it. The question will be, how available is it and does someone else want it, too.

Saturn

Caution, Wariness, Wisdom, Boundaries

Serious Ideas

Moon Conjunct Saturn

The more cautious side of you gets an emphasis this year, and your immediate reaction will be to take a second look, give yourself a cushion of safety, use what you've learned to protect yourself wisely. Snatching elusive opportunities may be difficult, but risky business will not blindside you, either.

Sun

Your Inner Personality and Style

Teaching Ideas

Mercury Conjunct Sun

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

Uranus

Discovery, Revelations, New Ground

Insights and Ideas

Mercury Conjunct Uranus

The trouble with the arrival of sudden inspiration is that it departs just as quickly. Not this year, however, as your ability to get that brilliant plan down on paper and get it out to everyone is particularly enhanced. Not only do you have the invention, you have the patent, too, and that's what pays in the end.

Featured Natal Positions (continuation)

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Ideas of Love

Venus Conjunct Mercury

Clever and pleasing turns of phrase are likely to be your signature this year, as what you have to say is what everyone wants to hear – not even because of the content, but because you say it so well. That's more than just surface beauty, as it comes from an inner understanding of form and balance you're currently tapping.

Venus

Your Needs, Wants, Desires

Ideas to Act On

Mars Conjunct Venus

Implementing your desires is everything this year, and you'll be on fire to do just that, as your pot comes to a boil and often as not froths over the edge of fulfillment. Steamy passions and heated intentions no longer bubble under, so be prepared to live up to your fantasies when they present themselves first-hand.

Saturn

Caution, Wariness, Wisdom, Boundaries

Discipline Ideas

Mars Conjunct Saturn

There's extra energy available for endurance this year, as you're more tenacious side gets an extra boost and you find you won't get winded so easily as you move on from initial efforts to final, careful follow-through. You can go that extra mile because your wing tanks are primed to extend your cruising range.

Sun

Your Inner Personality and Style

Manage Ideas About You

Midheaven Conjunct Sun

Your most noble aspiration, the part you consider to be the real you, are at the masthead this year, which should give you a real chance to see if anybody salutes. Regardless, your personality is going to be on display and comments about you will be making the rounds, more than you're monitoring yourself.

Neptune

Dreams, Hopes, and Fantasies

Appears Spiritual

Ascendant Conjunct Neptune

You have a bit of a dreamy aspect about you, as if you are pursuing something that others can't quite see but is only on your own personal radar screen. Whether it's real or not, your challenge is to make them believe it is and come along for the ride. Pick your part and play it, as it's your stage if you take it.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jun 13, 2021 to Jun 13, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Sun Conjunct Mercury (TR-SR)

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
