Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Active Reception

Ascendant in Sagittarius

Rough and ready suits your appearance this year, as the more truthful and artless you appear the more you can pull off well-rehearsed tricks that seem spontaneous. In the end, it comes down to being forthright and honest, but some craftsmanship thrown into the works goes a long way to making it seem as sincere as it is. It can be easy to push the act too far, so it's better to leave them screaming for more than wishing you'd finish. If you look like the newest thing on the block, everyone will go for the bait. Innocence is in the eye of the beholder.

Emotional Objectivity Arises

Moon Square Ascendant

Your reactions may be slowed and refined a bit this year by your concerns about what people are saying about you and how you're going to play to the home crowd. That can put a damper on spontaneity and cause a lot of self-corrections to be constantly in play. It's hard to know what you look like when your mirror is in others' hands, and not your own.

The Midheaven

Your Reputation, Career, Life Path

Manage Public

Midheaven in Libra

Your reputation for interceding in situations that require remedy precedes you this year. You may find yourself being looked upon as the fixer when you would just as soon leave the situation alone to take care of itself. Just share your opinion, then take credit for things righting themselves afterwards.

Manage Self Building

Sun Trine Midheaven

Your inner self supports your outer vision this year, and you're likely to get into the nitty-gritty of the production in order to make it succeed. That means throwing yourself into funding and operations so there's plenty of support for the title on the marquee. It's not a task, it's a creative pleasure to do it.

Manage Physical Objectivity

Saturn Square Midheaven

Criticism of your work can come from both without and within this year, and you should welcome it to the extent it helps you improve your act. Watch out for gratuitous put-downs, however, as they're in the wind, too. Don't let self-deprecation get out of hand, or people might think you seriously doubt yourself and join in.

Manage Conserving Insights

Uranus Trine Midheaven

Cutting through the ordinary to more basic concepts of resources and how to use them gets you praise this year, although you don't do it for that reason. When you discover what has to be done, you just naturally go right to what suddenly seems obvious to you and take care of business. You can't help being an innovator.

Manage Practical Spirituality

Neptune Conjunct Midheaven

All kinds of imaginary things are being said about you this year, which bears some monitoring on your part, since that could do wonders for your reputation or completely confuse people's expectations when you show up for real. You can easily fly a false flag when you need to, but be ready to haul it down when the action starts.

Manage Examining Power

Pluto Sextile Midheaven

You've got support you don't know about this year, forceful friends that are smoothing your way not necessarily because you deserve it but because the situation demands it. So if you act like destiny is on your side, you're probably on the right track, but don't take all the credit for it.

The Sun

Your Inner Personality and Style

Receptive

Sun in 2nd House

You're likely to be wrapped up in your resources this year, putting yourself on the line for concrete gains and reality, where the buck starts and stops with you. In order to get what you want, you need to know what you want, and that requires throwing yourself into the task and truly identifying with the gains you hope to achieve. Some may think it's all about money, but it's really about having the wherewithal to fulfill yourself, the basic platform to launch and sustain your personal values and goals. You literally and figuratively are going for the gold and everything that precious metal symbolizes.

Preserve Independence

Sun Trine Uranus

There's just enough new popping up in your life this year to keep you fueled with interest and not so much as to totally rock your boat. You can absorb and creatively use what's coming into your life, and it seems like the newer the better. That's because you're at just the right level of change.

Embody Peace

Sun Trine Neptune

Following your star this year will lead you everywhere, and very successfully, even if you aren't always sure what that star is. It's like your nose – you can't see it well, but it's easy to follow and always gets you there. If it seems like the ideal, right thing to do, it's going to take you to the right place.

Experience of Change

Sun Opposite Pluto

Other people's problems can block your way this year, and like encountering a wreck in the middle of the highway, the only way you're going to get moving is to lend a hand clearing the road. Or, you can edge around it if you can find the space, but that might not be the responsible way of handling it, down the line.

The Moon

Your Feelings, Reactions, Emotions

Support and Care

Moon in Virgo

You may find your response to life this year to become a bit more specifically demanding and that you are a little more insistent on being told exactly what's meant. Emotional generalities won't do, as when you know exactly how you feel you expect the same of others. Don't let the fact that they may not be able to respond in kind put you off. Not everyone has their fingers on their own buttons all the time, even though you may this year, so don't let your standards down but don't raise the inner bar too high for others to jump over, either.

Spiritual Support

Moon in 9th House

If your heart were big enough, it could encompass all the sky - and that might be a good theme for how you feel this year. Your bound on a voyage of the emotions, an expansion of what touches your feelings through how you look at them. Thus, what might otherwise be intellectual concepts start to come through to you in a very personal way, like they mean something deep inside as well as on paper. It's a time when you can become sensitive to and passionate about things you might have thought too abstract for real involvement. It's about thinking with your heart and feeling with your mind.

Preservation

Moon Trine Mercury

Feelings tend to find easy and creative expression this year, and the flow from inside to outside, from heart to head, proceeds easily and helpfully. Reaction timing is smooth, as emotions rise and flower into articulation that encourages further inner exploration, both by yourself and those you're sharing with.

Caring For

Moon Trine Mars

Your first reaction to what you should do, how you should take action, is usually the right one this year, guiding your energies in an easy upward spiral, since you seldom get in your own way. A smooth, strong course simply confirms itself as you go along, so you tend to consistently feel good about what you're up to.

Innovative Steps

Moon Square Uranus

Fits and starts mark your maneuvers this year, as you over and under react to abruptly changing situations until you fine-tune your trajectory. That can be a little unsettling to yourself and those around you, so apologize if you must while moving on nonetheless. The appearance of inconsistency fades over time.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Practical Ideas

Mercury in Capricorn

Hard-headed plans that smack of experience and practical use offer more appeal than trying anything and everything new that comes to hand. Ambition requires that what you propose works and works well, so cutting out speculation and handing onto reality is what you'll choose when asked for your opinion.

Fertile Ideas

Mercury in 2nd House

This is a good year to structure your payments, generally organize your income and resources so there's a discernable plan behind how they come and go. It needn't be a push, because it will come naturally, but make sure you get it all down on paper while the spirit is moving you to attend.

Ideas to Express

Mercury Conjunct Mars

This year is a bit of a brain-burner, with a lot of mental energy simmering underneath your brow, intense considerations and planning running well into the night. Turning off your mind is the last thing on your mind as there's just too much to think about. Focus is the least of your problems, though getting some sleep may be.

Word Career

Mercury Trine Jupiter

Your plans evolved exponentially this year, but you may not realize just how much, because it tends to go smoothly and a lot gets done when you're on top of your spiral of growth. One good new idea builds upon another until you've got a whole new edifice built that you might not have anticipated at the beginning.

Venus

Your Needs, Wants, Desires

Selfless Love

Venus in Pisces

Pleasure comes as much in the imagination as in the tangible gifts that you might seek, as it's more about heeding the romantic call than digging into any one pleasurefest that actually delivers pleasure. Tenuous threads of the spirit call up possibilities that may seem unearthly at time, yet strangely satisfying.

Talk of Love

Venus in 3rd House

A good word may be as valuable as a good check, as communications are what get you where you want to be this year. When you say it beautifully, people listen, even if the content is not that deep. Of course, you could deliver that as an extra, but this year you may not have to, and still please everybody.

The Experience

Venus Opposite Jupiter

Sometimes when you're ravenously hungry and order big, when the meal comes the appetite dies. That's a general challenge of life timing you may have to meet this year as the best course gets served just after you've pigged out on the appetizers. Or worse, you realize when the main dish arrives that you should have.

Public Order

Venus Square Saturn

If you're always complaining, you'll never get what you want, and you'll need to resist the temptation to criticize the bird in your hand, or otherwise it will disappear into the bush. The challenge is to firmly grasp the opportunity of the moment, and then move directly to the next. Delay is your enemy, and it lurks within.

Mars

Your Energy, Life Force, Excitement

Efficiency Drive

Mars in Capricorn

Hard work doesn't mean long hours, but it does mean unflagging focus and a single purpose to get your job done. That approach will float your ambitions and support your success as long as you keep your eye on the ball. Not much room for frills or play, but when it's done you can bank on the launching pad you create.

Urge for Growth

Mars in 2nd House

Hard work promises tangible rewards this year, and certainly that's where you'll be directing a lot of your energy. Just remember that throwing good money after bad can really slow you down, so before you throw yourself into the task, make sure the previous push has got you going in the right direction.

Build on Success

Mars Trine Jupiter

There's a strong, rhythmic, expanding energy available to you this year, just the kind to hit one or more out of the park with natural ease. Once you've tuned into that rolling, swinging sense of timing, you'll wonder why you don't have it all the time. Well, there's no time like the present to learn from yourself.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Career of Care *Jupiter in Virgo*
 Major new developments this year will tend to be enveloped with a cloud of details that can obscure the main plan. Unless, of course, the main plan involves nurturing the small saplings that will become the great forest. It's all about scaling, so it's a good idea to alternate close-ups with the overview to keep perspective.

Spiritual Career *Jupiter in 9th House*
 Higher education is the key this year, though that may not mean the kind that tuition pays for. Bigger concepts, wider territories, greater travels await your urge to adventure, so leave yourself some time and space for expansion. You may not be able to do it all, but why not take a big bite?

The Right Path *Jupiter Square Saturn*
 This one-year-in-ten year is full of shifts and changes, struggles and dissatisfactions, confusion of purpose or profit in the world in general. If you didn't think ahead and see this coming, you can find yourself rather at the mercy of changing storms. Don't go for an easy fix, as a good one probably won't be available. The wise are waiting, not wading in.

Saturn **Caution, Wariness, Wisdom, Boundaries**

Obstacle: Security *Saturn in Cancer*
 A period of home-grown insecurity is underway, with a climate that is not so friendly to those who have kept all their eggs in one basket. Those who have invested in generosity or are generally diversified will find themselves rewarded, along with those who have kept their home budget down at their own expense. Be one of them.

Obstacle: Society

Saturn in 7th House

Who's your partner? If it took more than a second to answer that, you may have too many, and this year is the time to decide on who's who. When intimacy is the question, less is definitely more, and sometimes it's even necessary to set limits with those closest to you in order to achieve it.

Public Religion

Saturn Square Neptune

This year is a time of great hope or disillusionment for society at large, when what seemed to be a harmonious, hopeful, and supportive world turns back into a surprise Darwinian scenario, or vice-versa. The conflict of ideal with real, whichever temporarily triumphs, reminds that you must juggle both worlds in order to press on.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Ideas

Uranus in Gemini

Scientific and technical discoveries are being unveiled and much is revealed as overrated, misjudged, or even dangerous in hindsight. Nevertheless, the brilliance of it all dazzles everybody, and eye and mind appeal overcome gut reluctance. The result will be new tools, and afterwards the wisdom of how to use them.

Freedom: Caring For

Uranus in 6th House

Annoying routines and subroutines get broken up this year, and a good thing that will be, too, once it's accomplished. A better way to run it will suddenly occur to you, and don't be afraid to break the infrastructure to accommodate it. Unhealthy habits are best kicked cold turkey, once you know how.

Remember

Uranus Trine Neptune

This year is one of usually a set of three (most recently centering around 1939) that occurs only twice every 172 years and is reputed to have the effect of spiritual and scientific progress (though not without strife) upon society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

Discriminating Insight

Uranus Sextile Pluto

This several-year period (most recently centering around 1996) occurs only twice every 128 years and is reputed to have the effect of uniting political power and technological progress in society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

Neptune

Dreams, Hopes, and Fantasies

Embrace: Public

Neptune in Libra

The idealization of equality and therefore freedom is a major motivator, which may both arise from and cause struggles between oppressors and oppressed, or at least those feeling that way. Where true justice prevails, it is the best of worlds - where perceived equality is fabricated, it is a yet greater oppression.

Embrace: Spiritual

Neptune in 9th House

The bigger the idol, the more plentiful the worshippers, the more likely it's feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

Pluto

Necessity and Fate, Power, What Must Be

Control: Creativity

Pluto in Leo

A struggle for world domination and rulership intellectually and politically is underway that will produce a generation noted for creativity and great breadth of character that will, in fact, dominate world culture. It won't be easy getting there, but it will be a legacy that will last forever.

Control: Business

Pluto in 8th House

The power of mystery is seeded in the memory of loss, followed by the loss of the memory itself. What you have thrown away can come back to haunt you this year – or rather, come to control you because you'd forgotten you did it. When the old returns, return it its power over you, and it will relinquish it in turn.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Uranus

Discovery, Revelations, New Ground

Innovative Ideas

Moon Conjunct Uranus

The more inspired, if sometimes edgy, part of your personality is emphasized this year, and you've got a feel for the unusual approach right off the bat. You may be a bit unpredictable in your reactions, which can be rather sudden and intermittent, not exactly a rock to rely on. But when you hit it, it's the jackpot.

Ascendant

Your Looks, Your Presentation

Emotions Appear

Moon Conjunct Ascendant

You're wearing your heart on your sleeve this year, as your reactions about almost every situation are likely to instantly show up on your face. That gives you a fetchingly sincere appearance, but it also makes you easy to read unless you make a point of disguising it. Choose according to the circumstances.

Ascendant

Your Looks, Your Presentation

Career on Horizon

Jupiter Conjunct Ascendant

This year delivers a big boost in energy and confidence, like a shot in the arm. There's a similar effect on body, however, so look out for raised blood pressure, explosive emotions, things that happen from just too much going on. Be willing to take a rest when needed and this is a super fine time and ego-reinforcer par excellence!

Moon

Your Feelings, Reactions, Emotions

Serious Ideas

Saturn Conjunct Moon

A serious sense of emotional oppression or depression may set in at times this year, partially due to circumstances beyond your control, but partly for inner reasons. Stand back and view it from afar and you may find you're taking things seriously that you might have laughed off months earlier. Laugh them off.

Mars

Your Energy, Life Force, Excitement

Discipline Ideas

Saturn Conjunct Mars

Great physical effort is required to get things done this year, and the energy is significantly harder to come by. It's best to just take the time off where possible - if not, then pace your activities with great regularity and care and package and dispense your energies precisely to get use of every ounce.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jan 31, 1945 to Jan 31, 1946

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Actions Arise

Ascendant on Mars (PSR-SR)

The urge to aggressively get things done may rather suddenly present itself, and since it's brief, you'd do well to hitch your wagon to the energy and get twice as much work done. Just mind you don't push too hard too fast or you could break something, especially when your dealing with delicate situations.

Overview

Midheaven on Midheaven (PSR-SR)

It's about the time your birthday again, so check out your next solar return!

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
