

Global Hot Spot: The Virgo New Moon on September 17, 2020

Dateline Wednesday September 16, 2020: The New Moon on September 17 — energizing 25 degrees of Virgo — arrives with an urgent warning for humanity regarding the pandemic sweeping through all continents on Planet Earth except, so far, Antarctica. Here’s why there is the need for an urgent warning.

This degree of the zodiac is where Mars was located at the Discovery of Neptune on September 23, 1846 and when the 1918 Pandemic began in Kansas on March 11, 1918. It is also where Mars was located when the State of South Dakota — having a big rise in COVID-19 cases due to their *Governor’s dangerously and foolishly lax approach to combatting the pandemic — entered the Union on November 2, 1889. I discovered and explained the crucial importance of this Mars placement in Podcast 41 in the complimentary [Mark Lerner Astrology Radio AstroScope](#) section on our website at www.greatbearenterprises.com

Mars has many positive and negative themes and archetypes — and you can review many of them in the complimentary *Astro-Business Keys* section on our website. However, in connection to medicine, healing and diseases, the red planet is associated with the human blood system, fever, inflammation, acute rather than chronic conditions, heart and panic

attacks, rashes, high blood pressure and violent reactions by the immune system struggling to neutralize or lessen the severity of an alien force attempting to seize control of cells, tissues, muscles and ultimately the entire body.

Now any New Moon can signify an opportunity for enterprising earthlings to build forward momentum and take giant steps toward fulfillment of major plans, projects and activities, but right now Mars at 27+ degrees of fiery Aries is retrograde, in its own sign, and moving toward creating a dicey, hard-to-control 3-4-5 Pythagorean Triangle — with Mars making an oblique, 150-degree link with the Sun-Moon & Rising Degree (in the Washington, D.C. chart) and a tense square of 90-degrees to Saturn in its home sign of Capricorn while the Sun and Moon make a trine of 120-degree with Saturn. For America the Sun-Moon conjunction illuminates the Tenth House cusp of the USA birth chart from July 4, 1776 while the fate-destiny transiting Nodes of the Moon at 25 Gemini-Sagittarius are exactly above and below in the New Moon chart in Washington, D.C.

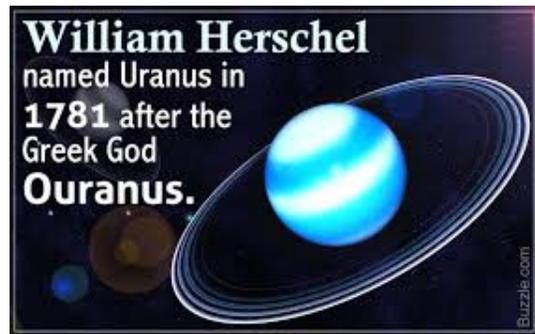

Note: Adding to the disagreeable situation of Mars re-igniting the pandemic as we enter the fall season in the Northern Hemisphere in six days on September 22, Mars is also making a close frictional square to underworld-ruling Pluto at 27+ degrees of Capricorn in the USA birth chart. Plus, please see the [Astro Flash on the Mars-Juno Polarity of September 13/14, 2020](#) feature that was just posted into the complimentary *Earth Aquarius News* section on our website on September 14 and which explains more about

how both of these celestial orbs are wreaking havoc on our West Coast by fire, smoke and hazardous air and via enormous rainfall and flooding being caused by Hurricane Sally striking the areas of Mississippi, Alabama and western Florida — along with its inevitable move into several other southern states in the approach of the New Moon, on that day, and just afterwards.

While the Sun-Moon conjunction is in an apparently favorable harmonious trine to Saturn, most of the sky configurations in and around the time of the Virgo New Moon are discordant in their intrinsic nature. These alignments include the Moon parallel Mars, Venus in Leo in an off-kilter, 150-degree tie to Pallas Athena in Capricorn, the Sun and Moon applying to an abrasive, 135-degree arc to shock-inducer and radical-change agent Uranus in Taurus, and the two traditional ruling planets of communication and transportation — Mercury and Jupiter — forming a square from Libra to Capricorn just 25 minutes before the New Moon is precise.

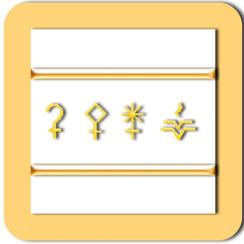

It is notable that Neptune — the ancient ruling planet of the seas, ocean currents, and everything associated with the element of water — is exactly setting and therefore extra potent just where Hurricane Sally is striking the southern states right now as a #2 level very-slow moving storm.

*I would be acting with neglect if I didn't write that the Sturgis motorcycle rally – usually attended by nearly 500,000 people – happens every year in August, beginning in Sturgis, South Dakota. Not only did the Governor of South Dakota allow all of these people to come into her state, but several hundred thousand of these individuals then returned to their home states around America in the last few weeks. Advanced electronic mapping techniques of the Sturgis attendees' cell phones revealed how the 48 states of the continental portion of our country became inundated by this definitely super-spreader COVID-19 event. This is the same Governor who welcomed a special event by the Trump campaign and Republican Party at Mount Rushmore for July 4 – with most of the attendees not wearing masks. Quoting from a Healthline.com report on September 14 concerning COVID-19 in all states: “South Dakota had the highest positivity

rate at 17 percent...South Dakota ...logged an increase of 104 percent (in cases) 2 weeks ago...some of the spike was linked to a large annual motorcycle rally held in Sturgis in mid-August.”

If you want to order a great report on the 4 main asteroids and Chiron in your birth chart — along with their meanings and mythological connections, zodiacal sign and house placements, and aspects to other celestial bodies when you were born — please visit the **Astrology Shop** on our website to order the [Four Asteroids and Chiron Report](#).

Seoul
Riyadh
Toronto
Shanghai

As usual, the USA and World City Lists — with the various favorable and unfavorable localities — are presented, but keep in mind that many nearby towns and cities are part of these zones. In addition, because humanity is dealing with the pandemic crisis far and wide, the favorable locations are not as favorable as they might be were the pandemic to lessen in severity.

In addition to all the special features on our website, tune into our new [Astrology Cosmic Kalendar](#) App to explore the inspirational guidance of the Daily Sky Cycles and Major Planetary Alignments as we celebrate the 39th anniversary of the Cosmic Kalendar which originated in our pioneering astrological newspaper/magazine *Welcome to Planet Earth* that was in print reaching thousands of people around the world during the 1980s and 1990s. Stay tuned to this online channel for late-breaking astrological features.
